CAPITAL OUTLAY

3/15/51.

Hello Harvey.

You can add Jane and Darlene Brus to the Sheridan Township passenger list. They started riding March 1st.

Fred Jansen quit riding March 3rd. They moved to Winfield Township.

Otherwise the passenger list remains the same as last report.

yours sincerely,
Clyde Moore.

Gerald Neumann

2/14/51.

Hello Harvey.

I have two new passengers to add to the Sheridan township list. They are twins, Marietta and Anitta Johnson. Their father's name is Cecil Johnson. They live on the Walter Johnson farm. They started to ride the Bus on January 29th. The pay for their transportation will have to be added to next month's check, as I received the February check today.

(Over)

Yours sincerely,
Clyde Moore.

Harvey, Robert Kleming
has been in the Bus
only one morning since
January 29th.

I have heard that his
mother is working in
Davenport and betapes
her in early. I heard
this from one of the
passengers so do not
know for sure if it is
so.

5

Hello Harvey.

The passenger list remains same as last report.

Harvey, I received the check today from Elmer Hamann for \$484.00. That would be for 44 passengers. According to my book there is 46 passengers.

Did you add Jane and Darlene Bous to the list. They started March 1st.

yours sincerely,
Ceyde Moore.

1/15/51.

Hello Harvey.

Starting with the first of this month, Vera and Verna Flenker are out. I understand they have moved to Davenport.

There is also the case of Robert Klemme which I will leave up to the Sheridan Township school board to decide what to do. He rides in the Bus some of the time and rides with some one else the rest of the time. As far as I know the rest of the passenger ^{list} remains the same. Yours sincerely
Clyde Mor

THIS IS ONLY A NOTICE AND IT IS NOT NEGOTIABLE. KEEP THIS NOTICE FOR YOUR RECORD

School Boards, Meeting Friday to Adopt New Budgets for '49-'50, Must Include All State Aid Allotments in Their Appropriations

School boards of towns, townships and independent districts must take into consideration their prospects for increased state aid at meetings Friday night to fix their budgets for the next fiscal year, according to information received from Des Moines by Mrs. Edna Spies, Dixon, president of the Scott county board of education.

Mrs. Spies said that the copy of information received by her was the only one available concerning how \$12,000,000 general aid for the next two years will be apportioned to districts on a basis of average daily attendance. The actual apportionment will be made Nov. 1 this year and also in 1950.

State instructions state that

the average daily attendance of the 1948-1949 school year will be used as the basis for the new fiscal year beginning Friday. School boards, in adopting budgets, will compute income from the state at the rate of 17 cents a day per pupil in grades kindergarten thru eighth, and 20 cents per day in grades ninth thru twelfth, and 25 cents per student carrying a minimum of 12 semester hours in junior college.

It is estimated \$12,000,000 will pay 97 per cent of this formula. This payment is based on a maximum of 180 school days, and where the number of teaching days was less allotment will be only for the days the school was in session.

One day may be counted for an authorized county or tri-county institute, and days lost because of weather, road conditions or epidemics may be included if proper forms are completed when application for state aid is made.

HOW TO COMPUTE BUDGET.

In computing the budget, state aid should be estimated and deducted from the total budget figure in certification to the county auditor of the amount needed. The law provides local taxes must be decreased by the amount 1949 general aid exceeds the amount received from the same source in 1948.

This is done, however, after increase or decrease in such items as change in enrollment, tuition, number of employees, repairs, fuel, salary and rental costs. A school board must be able to defend any increased costs or change of income.

In addition, the supplemental aid has been doubled to a \$2,000,-

000 total. The amount of increase to districts getting supplemental aid will be determined in each case, and all districts will not get double the amount of such aid they did last year.

TRANSPORTATION AID.

The new \$3,000,000 transportation fund allows the base for reimbursement to be raised from \$18 to \$30 per pupil per year. Some important points in this entirely new law on public school pupil transportation are as follows:

1. Parents may be required to transport children up to two miles to meet a bus, and shall be reimbursed 28 cents a mile, one way, per day for such service.

2. Boards may purchase busses on installments, one fourth down and the balance in five equal payments.

3. Board may purchase liability insurance for school busses.

4. School boards can change bus routes to meet legal or uniformity requirements.

5. Contracting procedures with drivers are clarified.

EMPLOYEE SICK LEAVE.

Beginning in September, school boards must provide minimum sick leave for all teachers and employees.

Five days leave with full pay will be granted in the first year of employment; six days in the second year; seven in the third year; eight in the fourth year; nine in the fifth and all subsequent years.

Unused sick leave shall be cumulative from year to year, up to a maximum of 35 days. Schools which have sick leave schedules which go beyond this law will not be required to make any changes in their present procedure.

A new tuition law, similar to that in the code of 1946, makes a change in the maximum rate a school district may charge. Instead of the \$10 per month for elementary children and \$17 per high school child, the maximum will be set each year by the department of public instruction and will be computed from costs in selected districts the previous year.

Computed costs in these selected school districts, in the 1947-1948 year, would place tuition rates at \$16.22 for elementary and \$29 for high school, and it is estimated figures based on the 1948-

REUNION AFTER

1949 year will show a slight increase. The figures above safely used in estimating for next year.

The new law also permits districts not maintaining school to levy additional necessary to pay for high school pupils.

Frank Peters, Secretary

Henry J. Schlueter, Treas.

Jefferson School

610 Holmes Street

Dear Board Member:

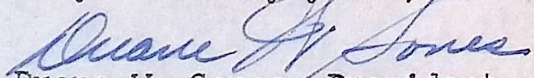

Bettendorf is building its own high school which is to open in September of 1951. It will be a new, modern high school with strong courses in college preparatory, commercial, industrial arts, agriculture and domestic science work. The school will have fine athletic, musical and social opportunities for all its youth.

We are making provisions to care for one hundred or more tuition students and we are planning a meeting with district Boards of Education to discuss our high school program with you. We are getting many calls from rural students throughout the county for admission into Bettendorf High School and many of them are from your district.

We would like to invite you and other members of your School Board to meet with us on Monday Evening, May 14th, at 7:30 P.M. at the Jefferson School, 610 Holmes Street, Bettendorf, to talk over how our high school might serve your youth. We will have courses in vocational agriculture for boys and domestic science for girls that your high school students will find profitable and interesting.

Would you meet with us May 14th to discuss this matter? We will be able to furnish bus facilities for some of our rural students if sufficient numbers of students from a district warrant it. If some parents of high school pupils wish to come along, kindly extend an invitation to them, too. We trust that your school district will be represented by some or all of your Board of Education Members.

Very cordially yours,

Duane W. Sones, President,
Bettendorf Board of Education.
